

OLD WORLD INDUSTRIES, INC.

4065 COMMERCIAL AVENUE
NORTHBROOK, ILLINOIS 60062-1851
847-559-2000

July 14, 2006

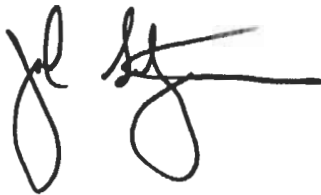

Dear Customer:

Effective August 1, 2006, or as contract allows, Old World Industries will implement a \$0.05/lb. off list increase on Purified Ethylene Oxide. All other existing terms and conditions apply.

This increase is necessary to offset rising feedstock costs resulting from heavy demand for Ethane/Propane and their related pricing being pegged to the heavier cracker (NAPTHA) feedstock model driven by record high crude oil pricing.

Please contact your Senior Sales Executive with any questions. Old World Industries takes this opportunity to thank you for your business.

Sincerely,

Joel Saltzman
Vice President and General Manager
