Old World Industries I Ltd.

An Old World Industries Company

September 14, 2007

Dear Customer,

Effective October 1, 2007, or as contracts allow, Old World Industries is announcing the following list/off list price increase for purified ethylene oxide (EO), as stated below:

<u>Product</u>	<u>Increase</u>	<u>October 1, 2007 List Price</u>
EO	\$0.20/lb.	\$1.23/lb.

All standard sales terms and conditions apply.

This significant increase is reflective of a combination rising feed stocks and increased demand for derivatives, of which the magnitude of this increase is heavily influenced by the alternative value of glycols, due to global supply and demand imbalances resulting in significant increases.

Should you have any questions, please contact either your Regional Sales Executive or myself.

Sincerely,

Joel Saltzman

Vice President and General Manager
