Old World Industries I Ltd.

An Old World Industries Company

August 14, 2007

Dear Customer,

Effective September 1, 2007, or as contracts allow, Old World Industries is announcing the following list / off list price increase on all grades of monoethylene glycol (MEG), diethylene glycol (DEG) and triethylene glycol (TEG) as stated below:

Product	Increase	September 1, 2007 List Price
MEG	\$0.06/lb.	\$0.89/lb.
DEG	\$0.04/lb.	\$0.85/lb.
TEG	\$0.03/lb.	\$0.92/lb.

Price in effect at time of shipment applies. Old World Industries reserves the right to limit quantities. All prices are FOB Old World Industries plant in Bayport, Texas. A \$0.03 / lb. up charge applies for product shipments FOB Old World Industries terminal locations.

These increases are reflective of rising feedstock costs resulting in higher ethylene values. Strong demand of glycols in all global markets, continue to apply pressure on already strained production and inventory levels.

Current market conditions are very dynamic. Your Old World Senior Sales executive can answer any questions you may have regarding the product markets.

Sincerely,

Joel Saltzman
Vice President / General Manager
