Old World Industries I Ltd.

An Old World Industries Company

September 14, 2007

Dear Customer,

Effective October 1, 2007, or as contracts allow, Old World Industries is announcing the following list / off list price increase on all grades of monoethylene glycol (MEG), diethylene glycol (DEG) and triethylene glycol (TEG) as stated below:

Product	Increase	September 1, 2007 List Price
MEG	\$0.10/lb.	\$0.93/lb.
DEG	\$0.02/lb.	\$0.83/lb.
TEG	\$0.03/lb.	\$0.92/lb.

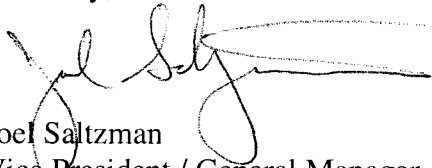

Price in effect at time of shipment applies. Old World Industries reserves the right to limit quantities. All prices are FOB Old World Industries plant in Bayport, Texas. A \$0.03 / lb. up charge applies for product shipments FOB Old World Industries terminal locations.

Global inventories are at critically low levels. Significant manufacturing disruptions in the Mid East region will cause long-term supply and demand imbalances. We anticipate these imbalances to persist for a period of 6 months to one year before these issues can be resolved.

Your continued support and communication are critical to our ability to meet your needs.

Should you have additional questions, please feel free to contact your Senior Account Executive or myself.

Sincerely,

Joel Saltzman
Vice President / General Manager
